Section -I

vi. Write four assumptions of law of decreasing marginal utilty.

x. Write three causes of negative slope of demad curve.

vii. What is meant by marginal rate of substitution?

2- Write short answers of any eight parts from the following. 2x8=16

3- Write short answers of any eight parts from the following. 2x8=16,

ii. Explain the difference between expansion in supply and rise in supply

4- Write short answers of any nine parts from the following. 2x9=18

ix. Write down the names of four kinds of business organization

(For all sessions)

KWP-11-19

## Economics (Essay Type)

Marks: 80

i. What is meant by capital goods? ii. What is positive science? iii. Define Economic Laws. iv. Define consumption of wealth. v. What is negative utility?

viii. Define simultaneous equations. ix. What is exceptional demand curve?

xi. Write formula of point elasticity. xii. What is meant by derived demand?

v. What is meant by Market?

xii. Define law of constant returns.

ii. Define average variabel cost. iii. What is meant by firm's demad curve iv. What is meant by equilibrium of firm?

vi. What is meant by Land?

i. What is meant by short run supply?

iii. What is meant by zero elasticity of supply? iv. Differentiate between stock and supply.

vii. What is meant by social mobility of labour?

viii. Differentiate between wealth and capital

x. What is meant by Production Function?

i. What is meant by average fixed cost?

xi. What is meant by small scale production?
