Early rising is a good habit as it gives us early start of our day's work. We gain time while the late risers are asleep. The early risers have another advantage, that is, they enjoy good and sound health. Those who are out of bed early have plenty of time to do their work carefully, steadily and completely. They do not have to put off anything to the next day. The early riser is always happy, fresh and smart. He enjoys his work while those who get up late, find their duty dull and dry and do it unwillingly. Early rising is therefore, a key to success in life.

Questions: - (i) What kind of habit is early rising?

(ii) Why can an early riser do more work than the late riser?

(iii) What kind of health, do early risers have?

(iv) Why does a late riser find his work dull and dry?

(v) What is the key to success in life?
